Collaborate with the development team to design and implement user-friendly interfaces, adhering to modern web standards and best practices. Assist in the creation and maintenance of responsive web applications, ensuring seamless functionality across multiple platforms. Utilize HTML, CSS, JavaScript and React JS to build interactive and visually appealing web pages, focusing on user experience optimization.

TECHNICAL SKILLS:

- **HTML/CSS:** Proficient in writing clean, semantic HTML and CSS code, ensuring cross-browser compatibility and responsiveness.
- **JavaScript:** Strong understanding of core JavaScript concepts, including ES6/ES7 features, DOM manipulation, and asynchronous programming.
- **CSS Preprocessors:** Experience with preprocessors like SASS or LESS for efficient styling and maintenance of large-scale projects.
- **Front-end Frameworks/Libraries:** Familiarity with popular frameworks and libraries such as React.js, Angular, or Vue.js for building interactive user interfaces.
- **Version Control:** Proficiency in using Git for code versioning, collaboration, and managing codebase changes.
- **Responsive Design:** Ability to develop websites that are mobile-friendly and adaptable to various screen sizes using media queries and responsive design principles.

SOFT SKILLS:

- **Problem-solving:** Ability to identify and solve complex front-end issues efficiently.
- **Attention to Detail:** Strong focus on writing clean, maintainable code and pixel-perfect implementation of designs.
- **Collaboration:** Experience working in agile environments, collaborating with cross-functional teams including designers, back-end developers, and stakeholders.
- **Adaptability:** Capacity to quickly learn and adapt to new technologies and tools in a fast-paced environment.
